Preschool PTSD Treatment (PPT) and Youth PTSD Treatment (YPT)
Registry of Trained Clinicians

September 10, 2026

How do I use this registry?

The purpose of this registry is to provide a public list of clinicians who have received training in PPT or YPT from approved trainers. The trainers are approved by Michael Scheeringa, MD, Tulane University School of Medicine, the developer of both treatment protocols.

Clinicians are listed in alphabetical order by their last names within three groupings of training levels. Trainers give clinicians one of three training levels for PPT or YPT:

(1) Advanced Training is the highest level. *Only clinicians who have achieved Advanced Training are considered certified to deliver PPT or YPT.*

(2) Basic Training is the medium level.

(3) One-Day Training is the lowest level.

For more details on each level:

ADVANCED TRAINING

Indicates clinicians who received the 1-day training, plus participated in weekly consultation calls during which the consultant monitored their case through at least 7 of the 12 sessions in our manualized course of treatment.

BASIC TRAINING

Indicates clinicians who received the 1-day training, plus attended at least 5 weekly consultation calls during which other clinicians discussed their cases being treated with CBT for PTSD. These clinicians did not receive weekly consultation on their own cases.

ONE-DAY TRAINING

Indicates clinicians who received the 1-day training only.

How do I submit changes for the registry?

We know that providers change addresses and credentials. We make periodic surveys of all the providers but we welcome help to keep this information up to date. Please submit additions and corrections to Dr. Scheeringa at mscheer@tulane.edu

The address for a clinician is wrong.

The addresses and phone numbers for clinicians were accurate at the time clinicians received training. We want this information to be up-to-date. If this information is incorrect, please contact Dr. Scheeringa.
